Interactive Art

Guests help the artist finish a painting in progress -- perfect for receptions, evening corporate events, hospitality rooms, etc. Marge sketches a regional landscape and the guests paint it as a team effort, one artist at a time. Guests think they can't do it until they pick up a brush and try! Then, the challenge is to get the brush out of the guest's hands. Men and women enjoy the event and chide each other on. Optional: An art and jewelry "trunk show" where guests can buy items on their own, or be given a certificate for choice of items paid for by the host.

Art Classes

Available as morning or afternoon half-day classes for spouses or teams. Enjoy casual, hands-on painting on your own take-home canvas. Reduce stress and think more creatively. Classes can be held on the hotel terrace, lawn, or conference room.

Jewelry Class

Enjoy making a bracelet, necklace or earrings with beautiful jewels.
